Aug 2023 – May 2024
 - **1:1 Instructor:** Provided tutoring in the following subjects: computer science I/II, data structures, introductory mathematics, calculus I/II/III, general chemistry I, macroeconomics.

PROGRAMMING SKILLS

- **Languages:** C, C++, C#, Java, Rust, Python, SQL
Tools: Git, Docker, Unity, PlasticSCM, Selenium, SDL3, Unreal, Aseprite, Blender

PROJECTS

- **Group18:** My own strongly-typed, compiled programming language that I am actively developing! Click the link for more info.
- **LUX LUX:** A PS2-style indie horror game. Can you survive as a security guard in an abandoned industrial yard? Click the link to view the trailer and play!
- **Landmarkd:** A Wordle-esque daily landmark guessing game. Click the link to play!
- **Csteroids:** An Asteroids inspired roguelite written entirely from scratch in C with the help of SDL3, a low-level graphics API. Click the link to play!
- **Farmers Only:** A 2D, top-down, bullet-hell roguelite. An entry in the Chapman University Panther Games Club Winter 26 Game Jam, where it won second place. Developed in 48 hours with no external assets. Click the link to play!
