Hiring Manager
Chapman University, Public Safety

11 May, 2026

Dear Hiring Manager,

My name is Blaise Rettig. I am a recent Chapman University graduate where I obtained my Bachelor of Science in Computer Science with a minor in Video Game Development, accumulating a 3.97 GPA, 7 appearances on the Provost's List, and a 4-year Dean's Scholarship along the way.

I have also been closely involved with law enforcement and public safety for the past decade. Throughout high school I was a **Police Explorer** with the King County (WA) Sheriff's Office, volunteering my time across meetings, community events, ride-alongs, and more. Over my four years of involvement I attained four President's Volunteer Service Awards, and was thrice selected as the Sheriff's Office Explorer of the Year for my embodiment of the department's core values: leadership, integrity, service, and teamwork. I left the program after climbing the ranks to **Captain**, the highest-ranking and commanding Explorer, a position I held for two years.

Over the summer of 2024, I returned home to the Seattle area and spent the summer again volunteering my time as a **Deputy Sheriff Intern**, riding along along with, shadowing, and performing patrol duties with a deputy on DUI emphasis patrol in the City of Burien. I wrote reports, collected/documented/processed evidence for use in criminal trials, and was even temporarily deputized one night.

Even today I stay involved, seasonally attending and assisting bi-annual live-in **Washington Law Enforcement Explorer Advisors** Police Explorer Academies held at the U.S. Army Yakima Training Center. I act as a mentor and authority figure to a platoon of explorers, provide guidance, instruction, and act in scenarios.

Beyond my law enforcement background, I have also previously worked for the university, as a Student Tutor, Student Grader, and most notably a Resident Advisor (RA) from 2023-2025. Being an RA necessitated frequent communication and cooperation between both us and your department, and I gained an appreciation and respect for both your patrol officers and dispatchers, and thoroughly enjoyed the rapport I developed with each.

I know my skills would translate exceptionally well to the **Patrol Officer** role at your department, and I look forward to talking with you further.

Thank you for your time and consideration.

Sincerely,

Blaise A. Rettig
